

Consumers Digest[®]

Bryant is pleased to announce that three heat pump models and a gas furnace have received a coveted Best Buy distinction from *Consumers Digest*. Each model was recognized for its efficiency, features, ease of use, ease of maintenance, and Bryant's reputation for quality and reliability.

Reliable Comfort Season After Season

Since 1904, Bryant® has built a tradition of comfort by doing whatever it takes to deliver products of superior quality and performance. Thanks to the commitment and dedication of our development and manufacturing teams, homeowners nationwide have learned to count on Bryant for innovative and reliable indoor comfort solutions.

Today, Bryant is proud that three heat pump models and a gas furnace were recently recognized by *Consumers Digest*. Best Buys in heat pumps and gas furnaces were selected based on efficiency, features, ease of use, ease of maintenance, and the manufacturer's reputation for quality and reliability.

Best Buys in Heat Pumps

"The Evolution® Extreme is the most efficient and the quietest series of heat pumps that we found. Its 13 HSPF rating is higher than that of any other series that we evaluated, thanks in part to its variable-speed modulation system. Its decibel rating of 58 matches the noise level of an economy dishwasher."

As an ENERGY STAR® Partner, Bryant Heating & Cooling Systems has determined that these products meet the ENERGY STAR® guidelines for energy efficiency.

Best Buys in Gas Furnaces

"The Preferred™ Series Plus 80x™ has the best combination of performance and warranty that we found among models that are in this price range. This line has the widest range of inputs among economy models that have a blower that uses an electrically commutated motor. This type of motor makes the blower quieter and more efficient than are those that are in models that use a standard blower."

Step up to HYBRID HEAT®

Ask your dealer about combining an Evolution® heat pump with a recommended Bryant gas furnace and Evolution® control to create a Bryant HYBRID HEAT® Dual Fuel System. This system automatically chooses the most efficient fuel source for heating to provide the ultimate defense against unpredictable fuel costs.
